MATERIALS INHERENTLY HAZARDOUS

YELLOW/BLACK LETTERING
Denotes materials that are flammable, toxic, explosive, chemically active, or poisonous

LIQUIDS OF INHERENTLY LOW HAZARD

GREEN/WHITE LETTERING
This group of materials present little or no risk of hazard to life or property. Non-toxic, non-poisonous, does not produce fire or explosions

GASES OF INHERENTLY LOW HAZARD

BLUE/WHITE LETTERING
Identifies gases with little or no threat to life or property

FIRE QUENCHING MATERIALS

RED/WHITE LETTERING
Indicates sprinkler systems and fire protection equipment

IDENTIFY YOUR PIPES!

PER ANSI A13.1

- For Safety
- For Operating & Maintenance Efficiency
- Easy to Install
- Show Legend
- Indicate Direction of Flow
- Show Colors for Material Classification
- Apply Florida Marking® Pressure Sensitive Markers:

Where pipes pass through walls or floors

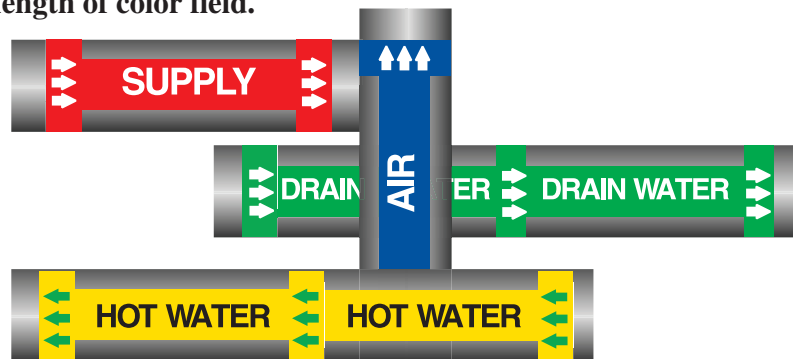

Near branches or changes in direction

At frequent intervals on straight runs

Close to Valves

Use wherever signs or labels are needed!

All Florida Marking® Pipe Markers, when used with appropriate arrows and banding tape, meet or exceed ANSI Spec. A13.1 recommendations for letter color, height and length of color field.

HOW TO ORDER PIPE MARKERS

STOCK PIPE MARKERS (Self Adhesive PM-100 Series)

Sun-Line™ Pipe Markers are designed to identify your pipes legibly and economically. Markers are available in various sizes to fit pipes and surfaces of various outside diameters. Please consult the accompanying table to determine the correct size for your application before ordering either stock or custom pipe markers.

CUSTOM PIPE MARKERS (Self Adhesive PM-100 series)

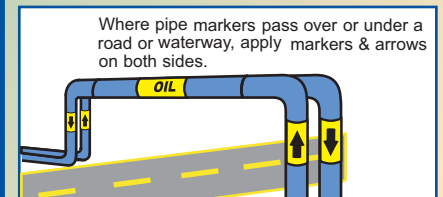

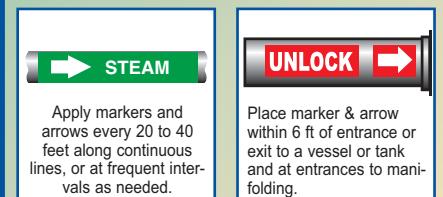

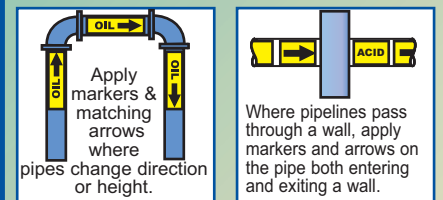

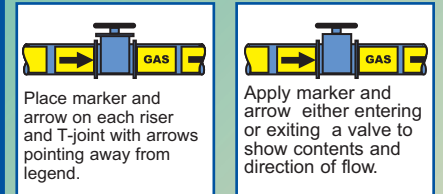

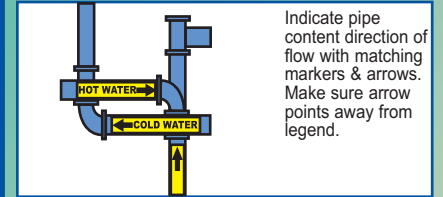

Can't find the special marker you need? We will make custom Sun-Line™ Pipe Markers to your specifications. We can meet standards for corporate identification programs, government requirements, ANSI Spec. A13.1 or in-plant specifications. Ask for our quotation to complete your individual marking requirements. Specify quantity, legend(s), color, style and pipe size (Outside Diameter).

Outside Pipe Diameter	Card Style (Standard card - 2 1/4" x 14")	Letter Height	Max. Characters per Marker	Recommended Arrow Tape Size
6" or greater	Style Jumbo; 1 marker - 4" x 24" Per Card COOLING WATER	3 1/2"	16	4" x 30yd

NEW!

PM-300 SERIES

Custom Mini Markers™

FOR PIPE DIAMETERS 3/4" OR LESS

Convenient and Cost Saving!

100 mini-markers per roll.

Easy to use just peel & stick!

•Subsurface printed for extra long life

•Abrasion resistant • Self-sticking

•100 markers per roll

•Each marker 1/2" high x 2 1/2" wide

• 3/16" high characters

STANDARD COLOR SELECTION:

1) Black letters on Yellow background

2) White letters on Green background

3) White letters on Red background

4) White letters on Blue background

Other colors available, please call for quote.

STEPS TO ORDER:

1) Specify Mini-Markers® PM-300 Series

2) Specify number of rolls needed

3) Specify legend (wording - Maximum 15 characters including spaces)

4) Specify letter color

5) Specify background color

Don't Forget To Order Directional Flow Arrow & Pipe Banding Tape

See page 7!

ANSI Spec. A13.1 Recommends:

- 2" Arrow Tape - for Marker Styles 1, 2, & 4
- 4" Arrow Tape - for Jumbo Markers
- Arrow Tape included for Style 3A

Roll Usage Calculation Guide

Use this guide to determine the number of rolls of Arrow Tape or Pipe Banding Tape required to complete your job. We recommend 2 bands per marker.

Outside Pipe Diameter	Number of Color Bands per roll*	
	Arrow Tape (30 yds.)	Banding Tape (36 yds.)
1"	260	310
2"	150	180
3"	100	120
4"	80	95
5"	60	75
6"	50	60
7"	40	50
8"	35	40
9"	30	35
10"	30	35

*Approximate number of times roll will wrap around pipe.

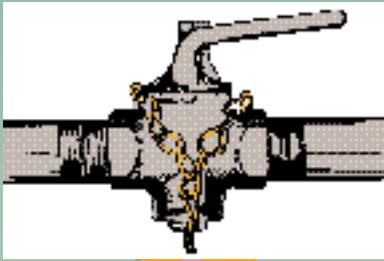

FOR STOCK & CUSTOM PIPE MARKER PRICING, SEE PRICE BOXES 3A & 3B

*Stock Numbers in red indicate Style 2 Pipe Markers.

WRAP-TITE™ COILED MARKERS CAN SAVE YOU MONEY!

- Wrap-Tite™ Pipe Markers conform to all ANSI A13.1 specifications for color, length of color field, wording, etc...
- Huge Labor Savings!
- Sturdy plastic construction resists damage in most environments, and installation is easy indoors and out.
- No need to remove any dirt or surface rust before installing - Markers wrap completely around the pipe.
- No adhesive needed!
- No need to buy directional flow arrow tape! Flow arrow is printed on every marker.
- Re-use markers when sections of pipe are removed or replaced!
- Sub-surface printed for durability.

Wrap-Tite™ pipe markers are designed to last! Subsurface printing ensures that the legend and color field remain visible, even after years of use. Wrap-Tite™ markers wrap snugly around pipes with outside diameters of up to 6", allowing for visibility and quick identification from all angles. For pipes with an overall diameter greater than 6", stainless steel springs are included to hold the markers firmly in place.

SIZE & STYLE

Outside Diameter	Max. Char. Per Legend	Letter Height	Style Description
3/4" to 1 3/8"	15	1/2"	Style A
1 1/2" to 2 3/8"	15	3/4"	Style B
2 1/2" to 3 7/8"	15	1 1/4"	Style C
3 3/8" to 4 1/2"	15	1 1/4"	Style D
6" to 8"	15	1 1/4"	Style F
8" to 10"	15	2 1/2"	Style G
10" and over	15	3 1/2"	Style H

STOCK MARKER PRICING

See Price Box 8A on Price Sheet

TO ORDER: Prepare a list of the wording and pipe sizes required for markers needed. Choose the appropriate legend from the chart shown, then complete the part number by indicating the correct style letter (A-H) for the pipe you're labeling. (Styles & sizes are listed in the price table.) All markers may be combined for quantity pricing.

Sample: An "ACID" marker to fit a 4" pipe would require catalog # PM-9801-D
