

**FLORIDA MARKING PRODUCTS CELEBRATES 25TH YEAR
WITH PURCHASE OF HIGH-END FLEXOGRAPHIC PRESS**

Certified as Women-Owned Business Enterprise

Longwood, FL — With the recent purchase and installation of a new, top-of-the-line Flexographic press to better serve its customers, Florida Marking Products is expanding its high-quality product offering into the pharmaceutical industry. Now celebrating 25 years in business, Florida Marking is a top manufacturer of all forms of products and solutions for identifying products and property, including custom labels for food, chemicals, clothing and construction.

“Since pharmaceutical labels provide important product and dosing instructions at the point of consumption, it is vital that the information is not only accurate but traceable to the point of origin in the event of a recall,” said Jackie Abrams, founder and president of Florida Marking Products. “Consequently, Florida Marking Products has implemented all of the Food & Drug Administration’s compliance requirements for pharmaceutical labeling operations.”

Since 1984, Florida Marking Products has helped its customers increase brand awareness, customer satisfaction, and operational efficiencies, as well as reduce risk, theft and liability. From commercial contractors, to meat packers, to local and state governments, to tourist attractions and theme parks – FMP has helped a diverse array of companies reach their goals and objectives by manufacturing, competitively priced, custom, high quality, 4-color labels, signs, decals, stickers and pipe markers.

“It doesn’t matter if it’s a parking lot sign, a decal, name plate, banner or Braille signage; we pride ourselves on being ready to meet whatever challenge our customers bring us. Exposing their brand in creative ways can only help increase their market share,” Abrams said.

“Expanding our services into the pharmaceutical industry is a natural evolution for our highly skilled team of professionals.”

With the recent certification of Florida Making Products as a certified Women-Owned Business Enterprise by the City of Orlando, Florida Marking Products is approved to bid on any of the custom marking and signage for the new Performing Arts Center, Event Center and Citrus Bowl.

Celebrating 25 years in business, Florida Marking Products is located in Longwood, Florida and is a manufacturer of quality marking products, including custom printed pressure-sensitive labels, rubber stamps and daters, name badges, signage, industrial inks, stencils, and property and asset tags. Florida Marking Products also offers thousands of unique promotional products to help generate brand awareness.
